

PET Quality Policy Statement

The mission of Pulsed Energy Technologies, LLC is to manufacture and distribute the highest quality products. We pledge to provide our customers our utmost commitment in creating a quality product maintaining top level customer service, satisfaction and results. Our family of employees believe that the technology we produce positively impacts many across the world.

Together, our employees pledge to ensure these standards are met. We will always strive to attain these goals for our Quality System:

- 1) Provide top quality customer service
- 2) Provide effective top quality management to both customer and employee in regards to satisfaction, quality and safety.
- 3) Provide effective technical support.
- 4) Provide a comfortable, positive, safe and efficient workplace for all employees.
- 5) Continually look to improve all areas of Customer Service and Support, Employee relations, Community involvement, and regulatory standards.

We are committed to operating an effective quality system that meets or exceeds the requirements of ISO 13485:2003, FDA, EU MDD, CEMDR, and Safety.
